

Frome St John the Baptist Tap [Well] Dressing 2020

Be thankful when you use water
Let it not lie polluted, or run to waste
So often water is taken for granted

There is such beauty in water
Beauty of cloud and stream
Beauty of nurturing rain
Wind and warmth have caressed it
We are baptized in it

Be thankful when you use water

The blessing of St Aldhelm's spring and Well dressing at Frome St John the Baptist parish church happens on the Saturday nearest to May 25th, the feast of St Aldhelm who founded the church and town. This year we've gone virtual and folk have put a small display of flowers, or a picture of flowers, by taps in their homes and sent in pictures to form this collage.

"We have reason to be thankful that we have clean fresh water in our homes with which we can wash our hands at this time and a celebration of that and reminder that not all in the world have that basic clean water supply we take for granted seems appropriate."

**Generous God, Source and fount of life, From whom
all blessings flow, As these waters flow from your
earth Through the midst of our being and doing Our
trading and conversing Our heritage and our present
May your spirit ever flow amongst us Enriching our
lives for the service of your kingdom of justice and
peace and joy through Jesus Christ our Lord. Amen.**
